ADÉLA JELENOVÁ

Graphic designer

About me

I am a graphic designer and also a teammate. I think teamwork is an important part of graphic design. My works are mostly minimalist, but I can adapt to the client and do the work according to his ideas. Besides graphic design, I also work as a stuntwoman. Born and living in Prague. I love playing field hockey, 16 years and counting. I like to bake, but I don't eat sweets. I think I'm quite funny, I can make fun of myself. I am a very communicative person, but I am silent at the right time. I like to learn new things, for example to learn in new programs. Knowledge of Adobe Illustrator, Photoshop, InDesign, XD.
